

HOW DOES IT WORK?

Volume - Controls the output volume.

Gain - Controls the amount of distortion in the circuit, turn it to the left to clean up your tone.

Tone - Cuts or boosts treble frequencies.

Voice - When down, the Piper Drive is more open and transparent. When up, the bass is tightened, mids are boosted, and more gain is available.

POWER REQUIREMENTS

9V Center Negative - Using anything else will ruin your pedal and void the warranty. Consumes 54mA.

WARRANTY

All Westminster Effects carry a limited lifetime warranty for pedals sold within the United States and a one-year warranty for pedals sold internationally, for workmanship and components. The warranty does not cover misuse or damage due to accidents. Tampering with components such as trim pots voids the warranty.
