

ROCKCARE® BY WARWICK®

MultiTool Owner's Manual – English –

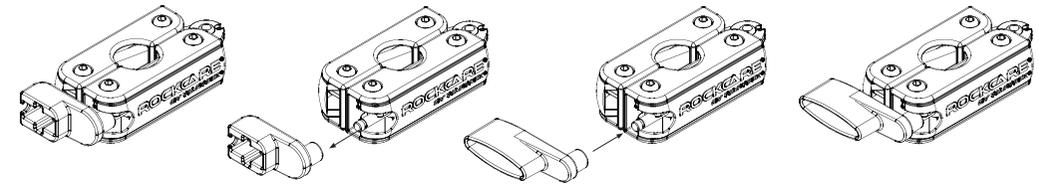

The ROCKCARE MultiTool combines all the tools that are required by guitarists and bassists in a compact form.

The string cutter has a compact head that accepts and cuts common bass & guitar string gauges easily.

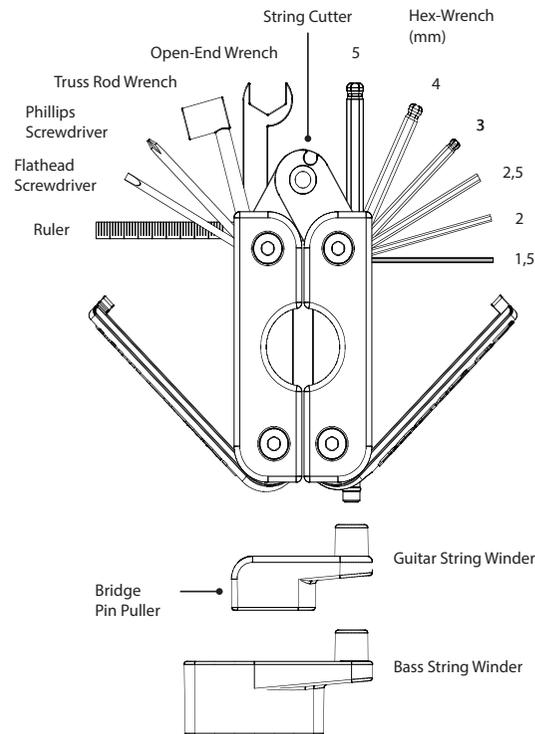

When your MultiTool is closed, the blade is protected.

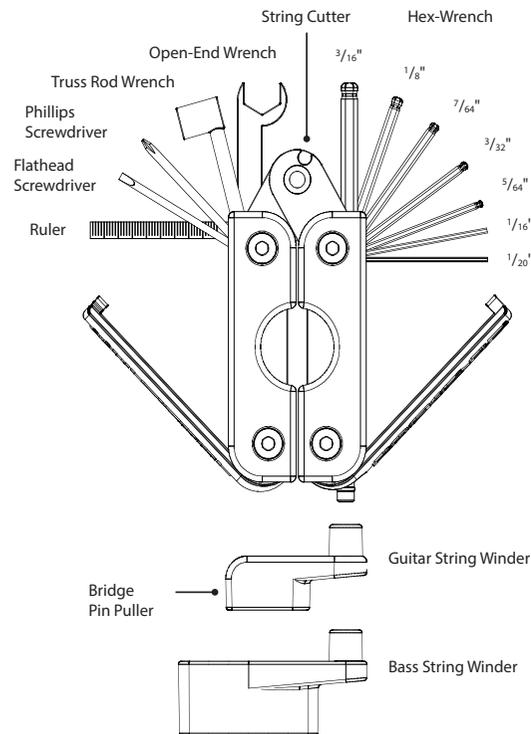

Your MultiTool comes with exchangeable string winders for guitar and bass. These can be easily exchanged by pulling them off the axis of rotation. The guitar version has an additional bridge pin puller.

Version: MultiTool METRIC

MultiTool IMPERIAL

All the different tools are safely contained in the two halves of the housing.

After opening the cover, select the desired tool and isolate. The tool is easily usable and secured in the right position by closing the cover.
