WARRANTY

This product is warranted against defects in materials or workmanship for one (1) year from date of original purchase. It does not cover damages or wear resulting from accident, misuse, abuse, or unauthorized adjustment and/or repair. Should this product require service (or replacement at our option) while under warranty, please contact info@redpandalab.com.

SPECS

Size: 2" x 1.5" x 1.2" Input impedance: 1 $M\Omega$ Output impedance: 1 $k\Omega$

Frequency response (+/- 3 dB): 20 Hz - 40 kHz

Signal-to-noise ratio: 90 dB Power: 5-18 VDC, center negative

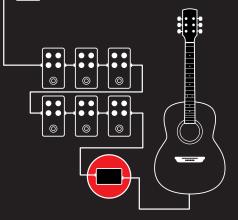

Current: 20 mA

The Bit Buffer is a tiny (2" x 1.5") buffer that uses an ultra-low distortion, low noise op amp. Place it at the beginning of your pedal chain to prevent high-frequency loss (tone suck), or right before a long cable to a pedalboard or amp.

The Bit Buffer is always on when power is connected. An internal LED is visible below the power jack.
