

# Installation Manual for RockBoard® Handle Set for RockBoard® Pedalboards English

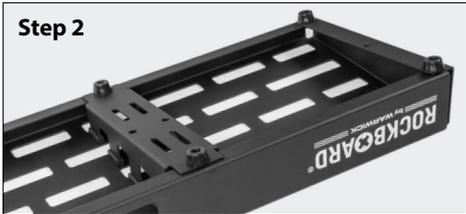

Thank you for choosing the **RockBoard®** Handle Set, the ideal solution to safely and conveniently lift the pedalboard from the gig bag or flight case and to protect the neighboring pedals. It meets the highest demands; the ergonomically shaped handles provide a comfortable and secure grip. They allow the pedalboard to be carried effortlessly and are made of hard-wearing material to ensure reliable during and stability during transportation. Assembly is very simple and requires no complicated tools. Thanks to its adaptability, the Handle Set can be easily fitted to all **RockBoard®** models.

## Mounting

Slide one handle at a time as far as it will go into the desired position.

Turn the **RockBoard®** pedalboard over.

Tighten the two grub screws provided hand-tight to fix the handle securely in place.  
Repeat this process for all handles.

Your **RockBoard®** Handle Set is now completely assembled and can be used safely.
